Aerolyte Systems’ environmentally-sensitive surface cleaning and prep technology delivers state-of-the-art corrosion control through parts cleaning, coatings removal on metallic and composite surfaces, and shot peen treatment, while significantly reducing man hours and waste.
CORROSION CONTROL, SURFACE PREPARATION & PARTS CLEANING

CUSTOMIZED MEDIA SELECTION

CORROSION CONTROL COMPONENTS

PRESSURE BLAST CABINET SYSTEM

F-22 ROBOTIC BLAST FACILITY

INSTALLATIONS: Hill AFB, Warner Robins AFB, Tinker AFB

APPLICATIONS

Remove Coating Finish | Shot Peen
Deburr | Improve Bladed Surface | Clean
