The Future of SURVIVABILITY

Greater Visibility  |  Enhanced Protection  |  Reduced Weight

- Leader in lightweight composite armor system solutions
- Provides Ballistic Protection Systems (BPS) to 90% of the DOD’s Helicopters
- 600 LB weight reduction using composite instead of steel
- Lightweight transparent armor panels that increase armor protection beyond the .50 Caliber Range
- No modification to aircraft needed for MITAS (Plug and Play install)
- Airworthiness certifications by the US Army

Custom configurations available

MULTIPLE IMPACT TRANSPARENT ARMOR SYSTEM (MITAS)

ENHANCED BALLISTIC PROTECTION SYSTEM
- UH-60  • CH-47  • CH-53  • MH-47  • MH-60  • MI-17
